DEVELOPMENT PROJECTS

DnDeasy – A front-end focused application to assist users in creating a character for the game Dungeons and Dragons. Uses Javascript, JQuery, and Bootstrap for functionality and usability, and Java and MySQL for each user's CRUD functionality.

Adlister - The AdLister application is a back end focused imitation of craigslist using Java, MySQL, servlets, and Tomcat to deploy the project. Any user with a login has CRUD functionality for themselves in regard to their profile and Ads.

Weather Map - The Weather Map application is a project that uses two REST APIs in conjunction with one another to generate weather cards, while simultaneously updating the map to search for a location's weather. jQuery and BootStrap libraries are used in this project.

PROFESSIONAL EXPERIENCE

Stay at Home Father   **July '17 – Present**

Financial Advisor at USAA and Edward D. Jones & Co. – San Antonio, TX   **November '13 – July '17**

Provided multiple training sessions to other advisors to improve advisor efficacy in investments and life insurance, focusing on efficacy with managed money products. Promoted early from Financial Advisor III to Financial Advisor II. Averaged $750k in assets gathered and approximately $10k in insurance premiums monthly, using a consultative sale process from warm leads.

Store Manager at Safeway Inc. – Washington, D.C.   **June '12 – August '13**

Responsible for all aspects of profitability, maintenance, customer service and human resources of a business unit with $500k in annual revenue and $17.5 million in annual sales located in the highly competitive Washington DC Metro area.

- With a customer-centric focus, achieved a 2% sales increase over previous management team – an increase from .5% sales increase year-to-date to a 2.5% sales increase with no changes in marketplace factors.
- Through both sales increases and stringent fiscal management, increased profits on a year-to-year, same-store basis from an $11k loss to $140k in profit during initial quarter as assigned manager.

MILITARY EXPERIENCE: US NAVY LIEUTENANT   Secret Clearance 2005-2015

Training Officer – USS MAHAN (DDG – 72), Norfolk, VA   **May '09 – June '12**

Synchronized, scheduled, assessed, and maintained 400 critical, ship-wide certification requirements for multiple assessments. Orchestrated 1,500 Navy school requirements for 280 sailors, 5,000 personnel qualification standards, and individualized training plans for 32 divisions, 5 departments, and 20 officers. Routinely led teams of up to 50 officers and sailors in high-visibility operational roles.

- Used thorough understanding of requirements to successfully complete 4 major assessments, certifying as deployment-ready and consistently earning praise as "best on the waterfront."
- Cited as an example of engagement and cooperation between afloat assets and assessment groups.
- Improved both the ship's Training Figure of Merit from 75% to 96% and the training process by engaging superiors and subordinates and capturing, quantifying, and correcting discrepancies.

Auxiliaries Officer – USS LEYTE GULF (CG-55), Norfolk, VA **May '07 - May '09**

Supervised the maintenance and operation of all non-propulsion engineering equipment, including 5 air compressors, 2 refrigeration plants, 4 chill water/air conditioning plants, 10 pumps for various liquid service systems, 2 ship's boats, 2 pneumatic davits, and the flight deck and aviation recovery system – $100 million worth of equipment in total.

- 100% advancement rate for technicians, including a "Sailor of the Year".
